1. Exploring different bases with different mediums
2. Working with Grids

July 11th Completing Artwork

Choose favourite piece of work from course and finish

Louise Russell

Louise is a local artist with a unique individuality. Her experimental approach to life is reflected in her work

Naturally a portrait artist she likes also to work inspirationally, reaching into the depths of the subconscious mind creating recognizable images whilst exploring a wide range of colour; lines; shapes; light and shade. It is then up to individual interpretation as to the meaning behind the works

In 1990 she gained a degree in Related Arts and Music at Chichester University

Since gaining her degree she has focussed specifically on arts in the community and in bringing all aspects of arts and performance into one spiritual experience.

PRICE OF FOUNDATION COURSE

Introduction Session	£5
<i>(if you feel this course is for you then the following will be payable in advance)</i>

Mobile 07985606670

In the Foundation Course, you will discover the tools of the trade and learn the basics about technique and creativity.

The Foundation Course will demonstrate how to use line; colour; light and shade using any medium and surface to gain professional and stunning results without really trying.

Come and get lost in Art, Inspiration and Creativity for two hours each week but also explore traditional methods which will provide an essential foundation on which to allow yourself to let go and dip into your own inspiration, developing your own awareness and creativity.

Getting Started and maintaining interest is very difficult in any discipline. Here, you learn how to make easy work of drawing and painting and amaze yourselves with your own creative powers. Getting positive results is what gives you the incentive to carry on.

We all have something to share with others and these courses are designed to inspire and help build confidence in a friendly environment and ideal conditions, allowing you the freedom, time and space to tap into, explore and expand on your own knowledge and experience.

Traditional methods are taught as part of the foundation course and within the inspirational art classes, and are essential as a basic tool, and foundation for your own creativity, but at the end of the day, true progress is down to exploration and performance and letting go. In everything creative we need to let go of tradition, doubt and uncertainty and allow the natural creativity to flow.

The knowledge gained in traditional methods explored in these courses will stand you in good stead and will serve you positively when you start to work inspirationally.

You will be positively stunned with the results of this foundation course - and then you will be able to choose to progress onto the next stage based on your personal experience so far.

The Foundation Course will be available at all times through the year, but this is a new course at this time and leads naturally onto the main Inspirational Art Classes which starts in the Autumn.

If you are interested in this Foundation Course, please contact: **Louise Russell on: 07985606670 or leave a message on: 01243 389004**
